 stackoverflow.com

Web Developer with 3+ years of experience in software solutions consulting. Experienced in collaborating with developers, product managers, and software architects. Familiar with agile development and version control (Github, Gitlab, Bitbucket), including tools such as Product Board and ZenHub. A confident presenter and teacher that can simplify complicated concepts to obtain actionable results.

Always stood out as a technical counterpart to customer-facing teams and acquired most of the skillset through self-education. Specialized in embedding data visualizations into customer apps at Tableau Software. Learned about API design and OpenAPI from subject matter experts at Stoplight.io. Attended the Coding Boot Camp at the University of Texas.

Technical Skills

Languages: JavaScript ES6+, HTML5, CSS3, Python, R, SQL

Tools & Frameworks: Node.js, React.js, Express.js, Django, Wagtail CMS, Docker, Spectral (OpenAPI validation), Prism (API mocking and contract testing), Anaconda

Applications: MySQL, MongoDB, Github, Gitlab, Bitbucket, Tableau Desktop, Tableau Server, Stoplight Studio, Zenhub, Product Board, Postman, Swaggerhub, AWS, GCP, Azure, Heroku

Standards: OpenAPIv2, OpenAPIv3

Projects

Marvel Basement / Role: Project Manager, JavaScript, and AJAX
January 2021

A website that searches for characters from the Marvel universe displaying metadata and descriptions along with animated gifs.

Technologies:

[Marvel API](#), [Giphy API](#), [Materialize](#), [Google Fonts](#), [jQuery](#), [Font Awesome](#), [iFramely](#), [Stoplight](#), [APIMatic](#), [OpenAPI Specification](#)

Project: <https://github.com/API-Guild/marvel-basement>

Repository: <https://api-guild.github.io/marvel-basement>

Marduk / Role: Sole Author

January 2021

A weather forecasting website using the OpenWeather API to obtain current weather conditions and 5-day forecasts. Images are obtained from the Unsplash API.

Technologies:

[OpenWeather API](#), [Unsplash API](#), [Bootstrap](#), [jQuery](#), [Font Awesome](#), [Day.js](#)

Project: <https://github.com/stephenlprice/marduk>

Repository: <https://stephenlprice.github.io/marduk>

Memento Mori / Role: Sole Author

December 2020

A workday scheduler that highlight hours past, present, and future to help plan your workday. Any unsaved events will be cleared to keep the calendar nice and organized.

Technologies:

[Bootstrap](#), [jQuery](#), [Font Awesome](#), [Day.js](#)

Project: <https://github.com/stephenlprice/memento-mori>
